

THE WINDMILL

Though the current windmill was newly built in 1875 (Norfolk News 28/8/1875), many old maps show a mill to have been in existence in a similar spot many years before this date. Various names are given for the millers who used the mill. Overton, Littlepoud and Land, being but three.

The mill was classed as being derelict in 1926 and was converted into a house in 1958 by the village stores owner Mr Frank Brown. The windmill has recently undergone a number of improvements.
